QUEST OPENS IN GLEN WAVERLEY

Quest Serviced Apartments continues its trail of capturing key CBD, suburban and regional locations with its latest opening at Glen Waverley in south east Melbourne.

This new Quest property on Springvale Road, is a three-storey development located in the middle of Glen Waverley and its neighbouring suburbs. It is at the gateway of the Monash district, servicing a range of local and national businesses.

Scheduled to open on 8 December, Quest Glen Waverley is being managed and run by a long-standing Quest identity, Paul Goldsmith. With two franchises under his belt - Quest East St Kilda and now Quest Glen Waverley, Paul brings to the business a rich history with Quest spanning 15 years.

"Quest Glen Waverley fits superbly into my own vision and that of the Quest Group. We will strive hard to make this property a true reflection of the Quest brand as we have before, delivering to business travellers a product that is deserving of this burgeoning precinct," says Paul.

Founder and chairman of Quest Serviced Apartments, Mr Paul Constantinou says that

Quest Glen Waverley will offer corporate travellers a stylish and centrally located property that takes advantage of its south eastern Melbourne location.

"As one of Victoria's busiest shire districts and a status as a strategic hub for many businesses in the Monash district, Quest Glen Waverley is ideally located to provide the very best in accommodation to suit the many and varied needs of the business traveller wanting to do business in the area," he said.

Paul Constantinou says that choosing Glen Waverley as a property location is consistent with the Group's 20-year business philosophy of creating Quest properties where business demand dictated and this is yet another example of its strategy working as planned.

"It is our philosophy at Quest to be 'everywhere people need to be' and to provide a 'home from home' experience for the extended-stay corporate traveller," said Mr Constantinou.

Quest chooses its property locations in CBD, suburban and regional precincts for their close proximity to business centres, restaurants and shopping enabling
