Quest continues to conquer with 100th property opening

Continuing a remarkable success story, Quest Serviced Apartments announces the opening of its 100th property.

Quest, Australia and New Zealand's largest serviced apartment operator, is opening Quest Moonee Valley, located in the Moonee Valley business district of Melbourne and opposite the famous racecourse. The property contains 61 serviced apartments aimed principally at business travellers.

The opening of its 100th property marks a milestone for the company which opened its first property in Fitzroy, Melbourne 18 years ago. Paul Constantinou, founder and chairman of Quest Serviced Apartments, recognised a gap in the accommodation sector for extended-stay business travellers who need to be located close to principal business areas.

Since 1988, Quest has continued to add properties to its portfolio, opening up a chain of franchise serviced apartment properties in Australia, New Zealand and Fiji.

Quest has grown to a company with an average revenue growth of 23 per cent during the past three years.

Quest Chairman and founder Paul Constantinou said that achieving the 100th property was a significant step in the company's continuing expansion.

"Our Moonee Valley property remains true to the Quest business philosophy of creating properties where demand dictates.

"Our property locations are chosen for their close proximity to business centres, restaurants, nightlife and shopping. We feel it's important that guests are close to where they need to conduct their business, but that they can have lifestyle options too.

"The Moonee Valley apartments are situated close to the local business district and racecourse in Moonee Valley, but also close to the railway and Tullamarine freeway providing easy access to Melbourne CBD and Melbourne or Laverton Airports."

"The company continues to expand and we intend to focus during the next five years on opening more new properties in New South Wales and Queensland. We will continue to meet the demand from business travellers for extended-stay accommodation which meets their needs for the right location, comfort and facilities. At present Quest has properties under development in Brisbane, Sydney and in the Hunter Valley."

Quest Serviced Apartments offer a comprehensive range of accommodation solutions across nearly 100 properties throughout Australia, New Zealand and Fiji.
